

QUALITY POLICY

Tecnomagnete SpA, leader in the production of permanent-electro magnetic equipments, is confident it will reach high efficiency and efficacy company levels by going on improving and progressing both in technologies and in manufacturing.

Tecnomagnete SpA has implemented a certified Quality System along the years, constantly upgrading according to the law UNI EN ISO 9001, rationalizing its own organization and its methods in order to align them to the quality rules.

To adequate one's own organization and methods means:

- To reach a higher liability, ameliorating production quality, service and final products;
- Periodically check the compliance of one's own Quality System management and the achievement of goals of ongoing amelioration.

Tecnomagnete SpA indicates the various organization activities as processes to be planned, checked and constantly ameliorated and put in action the resources for their realization. The process schedule is meant according to a risk based thinking approach in order to carry out all suitable actions to:

- Evaluate and treat beforehand the risks associated to company processes;
- Develop and strengthen the opportunities put in evidence in the organizational context.

Tecnomagnete SpA stimulates an adequate sense of proactive behavior in the handling of the its risks at any level.

Tecnomagnete SpA is aware that the engagement and the participation of the whole personnel and all the suppliers / cooperators are a fundamental strategic element for achieving its goals.

For such a reason Tecnomagnete SpA stimulates the professional development of the inner resources and the careful selection of the external cooperation to have competent and motivated human resources.

The main guidelines followed by Tecnomagnete SpA are:

- To be an established company at the national level as manufacturer of permanent-electro magnetic systems for industrial use;
- To make all efforts for maximizing efficiency and safety coming from the use of one's products both operationally and from an organizational point of view;
- Constantly monitor satisfaction and customer fidelity in order to ameliorate the Quality externally felt, prevent the claims and respect the delivery terms, granting the customer a high value service;
- To reach professional high levels, sensitizing and letting the personnel understand his own responsibilities and providing them with means, knowledge and any other necessary support for the fulfillment of his own duties for the company performances amelioration.

All these aims are explained, documented and communicated to all people involved.
